TRUE TO NAME NORTHERN GROWN NURSERY STOCK

Celery City Nursery Stock is Grown in A 240 Acre Nursery

And the above photograph shows a few of the well cared for trees as they grow in the nursery. This Nursery is located at Vicksburg, Michigan and all stock grown is acclimated and hardy in this portion of the Country.

Celery City Nursery stock has been the choice of many of the most successful commercial fruit growers and landscape architects for years and is equally popular with those who raise their own fruit and plant their own grounds.

Our References

For twenty-four years we have been supplying town folks, farmers and fruit growers, with reliable nursery stock direct from the nurseries at less than half agent's prices. These people are our best references and advertisements.

For Bank references, we refer to the Bank of Kalamazoo, at Kalamazoo, and the Farmers State Bank at Vicksburg, Mich.

Our Prices Prices herein given are for first class stock well packed, F. O. B. Vicksburg, Kalamazoo County, Michigan, unless otherwise specified. 5 trees of one variety are sold at the 10 rate; 50 at the 100 rate; 250 at the 1000 rate, unless otherwise stated. Less than 5 of one variety at the each rate.

CELERY CITY NURSERIES

(A Michigan Corporation)

ORGANIZED TWENTY-FOUR YEARS AGO

ORLA RICHARDSON, President

NOTE THE NEW LOW PRICES

THERE'S MONEY IN GROWING APPLES

While the price of wheat and other grain has been less than the actual cost of production, the farmer who has a bearing apple orchard and takes reasonable care of his trees is making more money off of a few acres than he does off the rest of his farm. The price of winter apples and summer apples as well has been consistently good for years.

EVERY FARM AND CITY LOT SHOULD HAVE A FEW FRUIT TREES AND BUSHES

Fruit is so easy to grow and takes so little room, that every home should raise most of their own fruit. Even though you have only a city lot you can raise quite a bit of the fruit you consume each year.

CELERY CITY NURSERY TREES

**Are Famous for Their Quality and Are
Guaranteed True-to-Name**

We have been Nurserymen for twenty-four years and have always prided ourselves on quality nursery stock. The trees we send you are far superior to the sort sold through department stores and by agents. You want trees that will grow and get into bearing at the earliest possible moment, and trees that will produce good fruit for years, and that is the kind we send you.

24 YEARS OF NURSERY EXPERIENCE

APPLES FOR HEALTH AND PROFIT

Summer Apples

Golden Sweet. Large fine yellow sweet apple. Very productive. August and September.

Red Astrachan. Large crimson, showy, sub acid flavor. Bears early and is very hardy. July.

Yellow Transparent. The hardiest and finest early Apple grown. Ten days earlier than Early Harvest. Fruit large; pale yellow, sub-acid. A very young bearer and entirely hardy. One of the best market sorts.

Fall and Early Winter Apples

Chenango Strawberry (Sherwoods Favorite) bright red and yellow. Bears early, August and September.

Duchess of Oldenberg. Grows and yields good crops even in the Northwest. Fine pie and cooking apple.

Fameuse (Snow Apple) Very productive and good seller.

Maiden Blush. Brings fancy prices early in fall.

Wealthy. The favorite Fall Apple everywhere.. One of the best and finest Apples grown. Very hardy, grows and bears well in the North as well as the South. Comes into bearing earlier than most other apples, often fruiting the second year after setting in the orchard. Medium to large size, round in shape. Extremely attractive with its light yellow, smooth skin almost completely covered with dark red; flesh white, fine, juicy and sub-acid. Tree a vigorous grower, and an abundant bearer.

Wolf River. Very large variety. Sub acid flavor.

PRICE OF ALL VARIETIES OF APPLE TREES

	Each	10	100
Mail size, 2 to 3 ft. trees	25c	\$2.00	\$15.00
Medium size, 4 to 5 ft. trees	30c	\$2.25	\$20.00
Large size, 5 to 6 ft.	35c	\$3.25	\$30.00

If any of the mail size trees are desired by parcel post add 8c per tree extra to cover cost of trimming, packing, and postage.

CELERY CITY NURSERIES, Kalamazoo, Mich.

LATE WINTER APPLES

Always Salable at Good Prices

Baldwin. A good standard variety that keeps well and brings good prices.

Cortland. An early producing tree. And a well flavored apple that is quite popular.

Delicious. A national dessert Apple. Successful wherever Apples are grown. Large, conical shaped, beautifully colored, striped red over yellow. Flesh tender, with rich, distinctive flavor, very aromatic and pleasant to the taste. Truly Delicious. Hardy, bears young and abundantly. Brings more money per box than other varieties bring per barrel.

Golden Russet. Keeps till late in spring.

Grimes Golden. The finest yellow Apple grown and one of the most popular Apples in cultivation. Tree strong, thrifty grower. Fruit medium to large, cylindrical in shape, regular surface, yellow veined, russeted; flesh yellow, firm, very fine grained, juicy, flavor sub-acid. Rich quality. Hardy. November to December.

Hubbardston Nonesuch. Large Yellow Apple fine flavored.

Jonathan. A beautiful red Apple, highly flavored, bears when young and is very productive.

King. A very large Apple. Yellow striped. Annual bearer.

McIntosh. A fragrant, bright red Apple with tender white flesh of snow-apple flavor and highest quality. Tree most hardy and vigorous and bears heavy crops while young. One of the best Apples for northern United States and Canada. Good keeper.

Northern Spy. Famous wherever apples are raised. Always brings top notch prices especially in Michigan.

Northwestern Greening. Long keeper, decidedly favored as a pie and cooking apple.

Rome Beauty. Bears annually, good keeper.

Rhode Island Greening. A good keeper. Rather acid flavor.

Staymans Winesap. Keeps November to April.

Talman Sweet. Rich, firm, sweet apple. November to April.

Wagener. Bears young and yields annual crops.

Winter Banana. Tender and delicious.

York Imperial. Crisp and juicy winter apple.

Crab Apples

SAME PRICE AS OTHER APPLES

Hyslop. Large; dark crimson, with bloom; very showy. Tree very hardy; late.

Transcendent. The largest Crab Apple. Red; showy; excellent. September to October.

24 YEARS OF NURSERY EXPERIENCE*

PLUMS FOR PROFIT

EASY TO GROW

European Varieties

Lombard. Medium size; somewhat oval in shape; violet-red; juicy; pleasant and good. Very hardy. One of the very best varieties to plant. Do not fail to include some of these in your order. August.

German Prune. Medium sized, long; purple; flesh green, sweet; freestone; excellent quality.

Bradshaw, dark violet red, juicy and good.

Fellenberg or Italian Prune. Large, oval, purple plum.

Reine Claude, (Bavays Green Gage) Large, greenish yellow.

Shippers Pride. Dark purple. Good keeper.

Shropshire Damson. Best for perserving.

Yellow Egg. Large oval, deep golden. Fine for canning.

Japanese Varieties

These kinds bear young and the fruit is of good quality and finds a ready market.

Abundance. Hardy and very productive; fruit large, and pinkish red in color. August.

Burbank. Medium to large; flesh deep yellow, firm and juicy, fine flavor; small pit. Excellent for table and canning. Bears very young and produces heavy crops. August.

Hybrid Plums. Very hardy for cold climates, they bear when but one or two years old in the nursery.

Opata. Toka. Sapa. Underwood. Waneta.

PRICES OF ALL VARIETIES OF PLUM TREES

	Each	10	100
Mail size, 2 to 3 ft. trees.....	35c	\$3.00	\$25.00
Medium size, 3 to 4 ft. trees	40c	\$3.50	\$35.00
Large size, 4 to 6 ft. trees.....	50c	\$4.25	\$40.00

Add 8c extra for mail size plum trees where ordered by parcel post, to cover trimming, postage etc.

CELERY CITY NURSERIES, Kalamazoo, Mich.

EVERY HOME SHOULD HAVE ITS CHERRY TREES

Compass. Larger than the Early Richmond. Produces first year after planting. A perfectly hardy variety.

Early Richmond (English Pie Cherry) ripens in June.

English Morello, Dwarf slender tree, Deep red cherries.

Montmorency. Probably the best hardy Cherry for home and market use. It is of large size, light red in color, stem rather short. The tree is very vigorous and hardy and bears soon after planting. The fruit is in great demand by canning factories and others, and sells at fancy prices.

PRICES OF ALL VARIETIES OF SOUR CHERRIES

	Each	10	100
Mail size, 2 to 3 ft.	35c	\$3.00	\$22.50
Medium, 3 to 4 ft.	45c	\$4.00	\$35.00
Large, 4 to 5 ft.	50c	\$4.50	\$40.00

Add 8c extra for mail size cherry trees when ordered via Parcel Post to cover trimming, packing, and postage.

SWEET CHERRIES

Black Tartarian. Very Large black cherry. Late June.

Windsor. Large liver colored, late sweet. July

Gov. Wood. Large, deep yellow, shaded red.

Lambert. One of the largest of all Cherries. It is purple-red; firm and rich. Every year sees an enormous crop, and the tree not only grows well, but is proof against insects and fungus attacks.

Royal Anne (Napoleon). Magnificent Cherry of large size; pale yellow with red cheek. Good for canning and shipping. July.

Schmidt's Bigarreau. Remarkably hardy and productive. Fruit of the largest size; a deep mahogany color; flesh dark, tender, juicy with a fine, rich flavor. Stone small. Good for canning. July.

SWEET CHERRY PRICES

	Each	10	100
Medium, 3 to 5 ft.	50c	\$4.50	\$40.00
Large, 5 to 6 ft.	60c	\$5.25	\$50.00

Sweet cherry trees cannot be mailed.

GROW PEACHES

For Your Own Table or to Sell

South
Haven
Peach

It's
so
easy
to
raise
peaches

Admiral Dewey. Early Freestone Peach. July.

Banner. Large yellow Peach. Good shipper. Sept.

Beers Smock. Large, yellow flesh Peach. Late Sept.

Carman. White, early, freestone. Good shipper.

Champion. Unusually large. A sweet, rich, juicy, freestone, beautifully colored with creamy white and crimson; a good shipper. Hardy, productive, profitable. August.

Crawfords Early. Large yellow Peach. Late August.

Crawfords Late. Similar to Crawfords Early, ripens September.

Gold Drop. Good market Peach. Golden Yellow. Late September.

Crosby. Very hardy and productive. Yellow, Sept.

Elberta. An ideal market Peach, and a royal fruit, from its yellow and red skin to its stone. The size is enormous, the quality excellent, the tree vigorous and productive. Better still, the market has never yet had enough of this sort.

Early Elberta. Ripens a week earlier than Elberta.

Engels Mammoth. Very profitable large Peach. Sept.

Hills Chili. Hardy, vigorous and productive. Yellow. Late September.

Heath Cling. Lemon shape, canning Peach. Good size.

J. H. Hale. Combines all qualities most desired, either for home or market. Brilliantly colored, deep golden yellow with carmine blush. Skin thick, without fuzz, smooth as an Apricot. Flesh deep yellow, firm, fine grained, tender, melting, luscious flavor. Very solid and heavy Peach of immense size, fully one-half larger and hardier than Elberta; enormously productive. Perfect freestone. Wonderful keeper and shipper. Sells for one-third more than ordinary sorts.

Kalamazoo. Large golden yellow with crimson cheek, one of Michigan's most popular Peaches.

New Prolific. Large, handsome yellow Peach. Sept.

CELERY CITY NURSERIES, Kalamazoo, Mich.

CELERY CITY PEACH TREES

ARE HARDY

NORTHERN GROWN STOCK

Rochester. A recent production, and market men particularly admire its splendid keeping qualities. It is a large, yellow-and-red freestone; flesh yellow, very highly flavored; to eat out of hand or canned it cannot be equalled as a table delicacy. Specimens measure 12 inches around and weigh 12 ounces. Stone very small and will ship as good as Elberta. The Peach comes into ripening during mid-August, when there are on the market no other yellow-and-red freestones of quality, and the Rochester, therefore, commands the very highest prices. The tree comes into bearing when very young. Is a strong, upright grower, hardy as an oak. Has stood 16 degrees below zero and produced a full crop; while Elberta and Crawford, under the same conditions in same orchard, produced no blossoms and consequently no fruit.

South Haven. Tree vigorous, of semi-spreading type. Very hardy. Fruit large, roundish, thick skinned, very uniform in size. Color deep yellow with red cheek. Stone free. Prolific bearer. Ripens more than two weeks earlier than Elberta or just a few days later than St. John.

Stearns. A freestone with yellow flesh and brilliant red skin. As a shipper it cannot be surpassed. Tree is a strong, upright grower, extremely hardy and free from disease. Last of September.

Triumph. The earliest yellow-fleshed Peach, ripening with Alexander and as good for eating as shipping. The tree blooms late and bears annual abundant crops. Freestone when fully ripe. August.

PRICE OF ALL VARIETIES OF PEACH TREES

	Each	10	100
Mail Size, 2 to 3 ft. _____	18c	\$1.50	\$10.00
Light Medium, 3 to 4 ft. _____	22c	1.75	14.00
Heavy Medium, 3½ to 5 ft. _____	25c	2.00	17.00
Largest Size, 5 to 6 ft. _____	30c	2.75	25.00

We do not hesitate to recommend planting the small size Peach Trees, even the Mail Size, and the light medium are very good trees to plant.

Add 8c extra for mail size trees if desired by parcel post, to cover trimming, packing and postage.

ORDER EARLY. SAVE \$ \$ \$

When you order nursery stock of Celery City Nurseries you are patronizing an old, established firm which has been under the same ownership and management for more than 24 years. This is a record to be proud of and it is your assurance of square dealing.

year after year

Bartlett

Pears Bring

Fancy Prices

Summer

Pears—

Ripen

Early

Bartlett. Large size, with beautiful blush next the sun; buttery, very juicy and high flavored; bears early and abundantly. August and September.

Clapp's Favorite. Large; pale lemon-yellow; flesh fine grained, juicy, melting, rich and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling the Flemish in growth. Pick the fruit at least ten days before it ripens upon the tree. August and September.

Best Varieties Fall Pears

Flemish Beauty. Ripens in September and October.

Kieffer. Profitable market variety, on account of its shipping and keeping qualities. A favorite for canning and preserving.

Sheldon. Large round russet Pear. Very hardy.

Seckel. One of the richest and highest flavored Pears known. Fine for desserts. A rather slow grower, but is worth waiting for.

PRICES OF ALL VARIETIES OF PEAR TREES

	Each	10	100
Mail Size, 2 to 3 ft trees	25c	\$2.25	\$20.00
Light Medium, 3 to 4 ft. trees	35c	3.25	30.00

QUINCES AND APRICOTS

Orange

Quinces

For truly

Delicious

Jelly —

Easy to Raise

Quinces

Quince trees can be planted on low, damp heavy soils where other fruits do not thrive. They require little attention and are very profitable for market. No home garden is complete without a few Quince trees.

PRICES OF QUINCES

	Each	10	100
4 to 5 ft.	75c	\$7.00	\$55.00
3 to 4 ft.	60c	5.00	40.00

Champion. Good bearer; very large; good keeper; very productive. Bears extremely young.

Orange. (Apple). Large, bright, golden yellow; excellent flavor. Fine for domestic use. The standard variety. Oct.

IF YOU HAVE ROOM TO GROW A FEW FRUIT TREES—WHY NOT PLANT THEM NOW!

Mulberries

Valuable for shade and ornamental trees as well as for fruit. Birds are very fond of the fruit, and for this reason Mulberry trees are often planted near cherry orchards, for birds will leave cherries alone if they can obtain Mulberries. They also attract many song birds; a lover of birds should plant a Mulberry tree.

PRICES OF MULBERRY TREES

	Each
Russian, 5 to 6 ft.	\$0.75
Downing, 4 to 5 ft.	1.00

Downing's Everbearing. Fruit very large, black, handsome and best quality. Bears abundantly for three months in a year.

Russian. Very hardy and a rapid grower. Fruit small, but produced in abundance; varies from white to black.

24 YEARS OF NURSERY EXPERIENCE

Apricots

Superb. The best Apricot now offered. Perfectly hardy, has no superior in productiveness. Beautiful yellow with slight blush; flesh firm and solid. One of its many desirable traits is its long season, covering a period of three weeks. **Special, 4 to 6 feet, 75c each; \$6.50 per 10.**

less hardy vines
All 2 Year
Extra Quality

You can buy cheaper grapes than we offer, but if you want the best you will order Celery City Grapes. Our grapes are full 2 years old and we ship nothing but No. 1 stock. It costs but a few cents more to get the best, why take a chance on "bargain counter" grapevines.

The standard white Grape for home and market. Pale yellow, flesh tender and sweet, skin thin, but tough. A fine shipper.

Campbell's Early. A black Grape of high quality, not acid and very sweet. Ripens 14 days before Concord. Large, attractive bunches and berries, keeping and shipping well. Vine quite hardy and productive.

Concord. Best known and most popular variety in America. It succeeds practically everywhere. Its large, black berries are borne in large bunches and, being covered with a decided bloom, they are of most attractive appearance. Of good quality.

PRICES OF DIFFERENT VARIETIES, ALL 2-YEAR. EXTRA FINE

	Each	10	100
Campbells Early Blue	20c	\$1.50	\$12.00
Concord Blue	15c	1.00	6.00

GOOSEBERRIES

**Ideal for Pies—Easy to Grow—Plant
Next to Your Garden Fence**

Downing. Medium to large, pale green. Quality good. Upright, productive. Midseason. The most widely grown variety.

2-year, extra fine, 25c each; \$2.00 per 10; \$4.50 per 25; \$8.00 per 50; \$15.00 per 100.

(If desired by parcel post, add 5c to the each rate; 10c to the 10 rate and 15c to the 25 rate to cover cost of packing and postage).

There Is No Over-production of CURRANTS.

You Can Sell All You Can Raise

Fine for Jelly—Easy to Grow—Very Productive

Cherry. The standard Red Currant. Fruit very large; a fine, upright grower; valuable for market and garden; splendid quality.

Fay's Prolific. One of the best and most popular Red Currants. It is productive, hardy and vigorous; it will average larger than Cherry; of the finest quality, and brings best prices on the market; fruit bunches 3 to 5 inches long, easily picked.

Perfection. Cross of Fay's Prolific with White Grape and combines the best qualities of both parents. In color it is beautiful bright red and of a size larger than the Fay; the clusters average longer and the size of the berries is maintained to the end of the bunch. It is one of the most productive Currants we have ever known. 45c each; \$4.00 per 10; \$8.50 per 25; \$15.00 per 50.

London Market. A fine Red Currant. Quality excellent with mild flavor. Bush healthy and vigorous.

PRICES OF CURRANTS

Except as noted, for extra fine, 2-year-old, 25c each; \$2.00 per 10; \$4.50 per 25; \$8.00 per 50; \$15.00 per 100.

(If desired by parcel post, add 5c to the each rate; 10c to the 10 rate, and 15c to the 25 rate to cover cost of packing and postage).

ASPARAGUS!

Brings Money Early

In the Spring

One of the most delicious, healthful and highly prized vegetables that soil can produce, Asparagus deserves the home gardener's special attention.

By selecting either or both of the varieties described below, and by following our simple instructions on planting and cultivating, you can quickly and easily develop a bed of Asparagus that should last twenty years or more. Such a bed will not only provide all the Asparagus

Washington. Developed by U. S. Department of Agriculture. A heavy yielding, pedigreed strain, immune to rust; grows rapidly and produces uniformly long, tender shoots of unexcelled table quality. Now eagerly sought after by both commercial and home growers. **\$1.25 per 50; \$2.00 per 100; \$4.50 per 300; \$7.00 per 500; \$12.00 per 1000.**

you want for family use, but will give you a surplus to sell to local markets or to neighbors.

Palmetto. A variety preferred by many and planted by home owners and commercial growers. Extremely large stalks, tender, juicy and of excellent flavor. Very productive. **75c per 50; \$1.00 per 100; \$2.50 per 300; \$4.50 per 500; \$9.00 per 1000.**

(If delivery of Asparagus roots is desired by parcel post, add 15c for 50; and 20c for 100).

AA-1 Stock in 2-year Growth. 1-year Plants at Discount of 20%.

Rhubarb (Pie Plant)

A few stalks of pieplant will give you plenty of delicious pieplant for sauce and pies. One planting lasts for years and years.

Linneaus. Early, very tender, and has a mild, sub-acid flavor, not stringy or tough. The plant is large, and for pies or other ordinary purposes, it is the housewife's favorite.

15c each, 10 for \$1.00; 100 for \$6.00; 1000 for \$50.00. If desired by parcel post, add 5c each; 20c for 10).

RUSH YOUR ORDER IN EARLY. SAVE THE CASH DISCOUNT

CELERY CITY NURSERIES, Kalamazoo, Mich.

RAISE YOUR OWN RASPBERRIES - - -

For years there has been a shortage of raspberries and many homes have not had them to can at all. The price is usually 30c to 40c per quart, and growers have realized handsome profits. Every farm and every city home should have a few raspberries to supply the family table. They are easy to grow and take up little room.

The New Viking Red Raspberry

The Viking is a cross between Herbert and Marlboro, in growth it produces taller canes than Cuthbert and they remain upright when loaded with fruit, thus facilitating picking. The canes are almost free from spines. Fruit is a bright, lively red, larger than Cuthbert, firm, carries well and quality is excellent. Ripens one week earlier than Cuthbert.
\$1.50 per dozen; \$10.00 per hundred.

Cuthbert. Canes tall, vigorous, healthy. Fruit bright crimson, firm. **\$1.25 per 25; \$2.00 per 50; \$3.25 per 100; \$25.00 per 1000.**

Early King. The King will ripen as early as any variety of Raspberry and owing to its wonderful fruiting quality will continue after other varieties are gone. The berries are very large, firm, beautiful red color and very easily picked. The canes are perfectly hardy and we have never known King to winterkill. Early King is one of the most profitable varieties of Red Raspberries grown and always brings the very top market price. Absolutely free from disease. **\$1.25 per 25; \$2.00 per 50; \$3.25 per 100; \$25.00 per 1000.**

Latham

The big Red Raspberry that outclasses all others. One berry to each square inch in boxes five inches square. This indicates that as a commercial proposition LATHAM has no rival.

REMEMBER THESE POINTS!!

- 1—LATHAM is conceded to be one of the **Best Red Raspberry now grown.**
- 2—It is vitally important to start a Raspberry planting with **mosaic-free plants.**
- 3—The supply of mosaic-free plants is short—very inadequate to meet the demand for this money-maker.
- 4—We have one of the very few supplies of certified plants available.

ORDER NOW—so you can get started in a good paying business—growing fruit for an eager market.

Price of Latham: \$1.00 per dozen; \$5.00 per 100; \$35.00 per 1000.

(If Raspberries are desired by parcel post, add 15c to the 25 rate and 20c to the 100 rate, to cover packing and postage).

St. Regis. This wonderful everbearing Raspberry will give you a big crop of berries from July until frost. St. Regis begins ripening with the earliest red Raspberries and continues bearing on the young canes all Fall. Berries bright crimson, large size, sugary, rich with full Raspberry flavor, very firm and a good shipper. Canes stocky, of good growth, with abundance of dark green, leathery foliage. St. Regis is a very heavy bearer in the regular Raspberry season, and in addition continues bearing all Summer and Fall. **\$1.50 per 25; \$2.50 per 50; \$4.00 per 100.**

24 YEARS OF NURSERY EXPERIENCE

THE NEW "CHIEF" RED RASPBERRIES

Chief Minnesota No. 223 is a seedling of Latham. It has been under development since 1916. The plants are very hardy, vigorous, productive, and excellent plant makers; canes are distinctly reddish, not quite so tall but stockier than Latham. Foliage is luxuriant, leaves large, of the Sunbeam type; very resistant if not immune to mildew, and very little affected by mosaic so far. The fruit is medium in size, roundish to slightly conic, bright attractive red; drupelets medium to below in size, adhering well so that berries do not crumble; flesh firm, juicy, medium sweet; quality high; season early. It is hardier, more resistant to disease, and ripens a week earlier than Latham.

\$1.50 per dozen; \$10.00 per 100.

Black Raspberries

Cumberland. The Business Blackcap. It is of wonderful productiveness, producing regularly and uniformly very large crops. In size the fruit is simply enormous, far surpassing any other variety. The berries run seven-eighths and fifteen-sixteenths of an inch in diameter. In quality it is similar and fully equal to the Gregg. Very firm and is well adapted for long shipments. It is an unusually strong grower, throwing up stout, stocky canes, well adapted for supporting loads of large fruit. **\$1.50 per 25; \$2.50 per 50; \$3.50 per 100.**

Blackberries

The growing of this very delicious and healthful fruit is attended with so little trouble and expense that every garden, however small, should have at least fifty plants. For cooking purposes, they are unsurpassed—Blackberry jam cannot be beaten—and will yield a dark wine of excellent quality.

(If Blackberries and Dewberries are desired by parcel post, add 18c to the 25 rate, and 25c to the 100 rate, to cover packing and postage).

Alfred. The new Blackberry that has a different, delicious Blackberry flavor. Berries extra large and sweet as honey. The canes are vigorous and very hardy; bears young and profusely. **\$2.00 per 25; \$3.50 per 50; \$6.00 per 100.**

Blowers. One of the hardiest; enormously productive; highest quality; large, jet black and good shipper. **\$1.50 per 25; \$2.50 per 50; \$4.00 per 100.**

Eldorado. Very vigorous and hardy; berries very large, jet black; ripen together; very sweet, no core, excellent shipper and keeper. The leading variety. **\$1.50 per 25; \$2.50 per 50; \$4.00 per 100.**

CELERY CITY NURSERIES, Kalamazoo, Mich.

DEWBERRIES

**ARE PROFITABLE AND FREE FROM
MOST DISEASES**

Young Dewberry

The Young Berry is a cross between the phenomenal Loganberry and the Texas Dewberry. It bears very heavily, the berries are large dark, wine color, have a minimum of seeds, are highly flavored and yield a rich looking, cherry colored juice. In the home garden you can produce more berries from Youngberries, than most any other that will grow in the same amount of space. **\$1.50 per dozen, \$10.00 per 100.**

"Our Own" Dewberries

We offer the best variety of Dewberry that we have been able to find, and is one that gives universal satisfaction. Berries are very large, in fact, being larger than any blackberry grown. They are jet black, coreless, sweet and juicy. Dewberries are perfectly free from rust and all other fungous diseases. **\$1.75 per 25; \$3.00 per 50; \$5.00 per 100.**

NEW LOGAN BLACK CAP RASPBERRY

This black raspberry is considered the most dependable Black raspberry grown. It produces large sizes berries and holds up well in dry season. Berries ripen quickly and makes picking easier. Ripens a week earlier than Cumberland. Yields very heavily.

Get your orders in early.

Price per dozen \$1.25; \$4.00 per 100; \$25 per 1000.

The New BLAKEMORE

Introduced by the U. S. Dept. of Agriculture—1930. (Cross of Premier X Missionary).

This New Variety succeeds under a wide range of soils and climate conditions. The plants are very vigorous in growth and resistant to leaf spot. They ripen a few days earlier than Premier, about the same size, equally as productive and with fewer white tips. Berries are bright red, hold their color and do not shrivel on standing after picking. They are firmer and skin is not as easily broken as Premier and other standard kinds which makes it an excellent market berry. Because of its excellent flavor, bright color, firm flesh, solid center and high pectin content, Blakemore stands supreme for preserving. **\$2.00 per 100; \$9.85 per 500.**

June Bearing Varieties

Dr. Burrill. The best thing anyone can say for Dr. Burrill is that it is superior to Dunlap; in fact, it really is an Improved Dunlap, which should be sufficient recommendation for it. **\$1.10 per 100; \$2.75 per 300; \$4.00 per 500; 6.50 per 1000.**

Gibson. Probably the most reliable and productive Strawberry of all. You will make no mistake in planting Gibson, either for home use or market. One slogan among berry growers is: "Two acres of Gibson and independence." **\$1.25 per 100; \$2.85 per 300; \$4.00 per 500; \$7.00 per 1000.**

Premier. The greatest early Strawberry of all time. A big producer under all conditions, combining size, quality, flavor and unusually attractive appearance with big yields. **\$1.75 per 100; \$4.00 per 300; \$6.00 per 500; \$11.00 per 1000.**

Senator Dunlap. The grand old-time favorite that has made more dollars and more crates for Strawberry growers than any other variety. Especially desirable for canning. **\$1.10 per 100; \$2.75 per 300; \$4.00 per 500; \$6.50 per 1000.**

If Strawberry plants are desired by parcel post, add 25c for the first 100 or less, and 10c for each additional 100, to cover cost of packing and postage. We advise express shipment of 500 or more Strawberry plants.

ORDER EARLY—SAVE MONEY

CELERY CITY NURSERIES, Kalamazoo, Mich.

FALL OR EVERBEARING STRAWBERRIES

**Plant Them in April or May—Start Picking
Ripe Strawberries in July**

You can have berries the very first season if you set out a bed of everbearing strawberries. They start to bear about 90 days after planting and bear till frosts occur in fall.

MASTODON. Order some of these guaranteed genuine Mastodon plants now and produce a season around crop of Strawberries. The plants you set in April and May, commence bearing in July and continue until Winter. **Three crops in eighteen months. Mastodon Plants, Big, Thrifty, and Healthy.** No ordinary Strawberry plant could mature the loads of fruit produced by this variety. Mastodon plants have enormous root systems.

Perfectly Hardy Everywhere. If your soil will produce garden truck, it will produce loads of Mastodon berries.

Mastodon is the first successful, commercial ever-bearer. It is a gold mine to the foresighted grower. A four-acre field of Mastodon in Michigan produced 1386 crates of fancy berries within 28 weeks after planting.

Prices of Mastodon: \$2.50 per 100; \$5.75 per 300. Express, collect, \$12.00 per 500; \$17.00 per 1000.

BEAUTIFY YOUR HOME WITH SHRUBS AND TREES

Hedges. Beautiful Living Fences

THUNBERG'S BARBERRY, JAPANESE. There has been much said about the rust on the Barberry and many people have been prejudiced against the Barberry Thunbergi from the fact that the common Barberry is subject to rust. We will guarantee, though, that the Barberry Thunbergi is not subject to rust any place and that it will pass inspection in any state. Ask your state or federal authorities about it. The Japanese or Barberry Thunbergi is a beautiful plant with drooping branches, spoon-shaped leaves, with foliage a brilliant shade of green in the Summer. From Autumn until early Winter the leaves are of a rich crimson and the branches are loaded with scarlet berries. Even in Winter it is very attractive as the berries stay on and the closely interwoven branches are thickly set with spines and never grow bare. We cannot recommend this hardy Barberry too highly for hedge planting. They should be planted 18 inches apart, and may or may not be trimmed as desired.

	10	100
12 to 15 in., transplanted	\$2.00	\$15.00
18 to 24 in., transplanted	3.00	22.00
24 to 30 in., transplanted	4.00	32.00

PRIVET, AMOOR RIVER NORTH (*Ligustrum amurense*). The hardiest Russian Privet of them all. It has light green leaves, is of upright growth, and is the only Privet to use for hedge planting in the North. In our section we find it superior to any other variety. Is not subject to blight. When properly sheared will give a very formal effect. They retain their green leaves until late in the Fall. You will have a bushier, more compact hedge if you will trim it back severely as you plant it. It should be trimmed at least once a year, in May or the early part of June. Plant 12 or 18 inches apart in the hedge.

18 to 24 in.	1.50	11.00

CALIFORNIA PRIVET. Most popular half-evergreen hedge. Remarkably beautiful, glossy, dark green foliage; strong, rapid grower. It transplants easily, grows quickly, making a hedge the first year, and succeeds in almost any soil. The plants should be set about eight inches apart and cut to 3 or 4 inches above the ground after planting to make the hedge bushy at the bottom. 12 to 18 inches, \$4.00 per 100; 18 to 24 inches, \$6.00 per 100.

IBOTA PRIVET. 12 to 15 in. \$7.00 per 100

CELERY CITY NURSERIES, Kalamazoo, Mich.

ORNAMENTAL AND FLOWERING SHRUBS

Aralia

Acanthopanax pentaphyllum (Five-Leaved Aralia). 5 to 10 feet high when full grown. Upright, prickly branches, with luxuriant glossy foliage. 1½ to 2 ft., 40c; 2 to 3 ft., 50c.

Berberis—Barberry

(See Page 25 for Barberry Hedge).

Berberis Thunbergi (Japanese Barberry). Low, compact growing shrub much used for border or hedge planting. Can be trimmed for formal planting. Small flowers in May followed by abundance of berries which turn to deep scarlet in Winter. The fine green foliage turns to a brilliant red in Autumn. Very attractive. 18 to 24 in., 35c; 24 to 30 in., 45c.

Berberis atropurpurea (Red-Leaved Barberry). Description is similar to Thunbergi in all respects except that the foliage is of a bronzy red color which turns to fiery red in Autumn. Excellent for contrast in a shrubby border. A new and perfectly hardy introduction. 12 to 15 in., 65c.

Buddleia

(Butterfly Bush or Summer Lilac)

Buddleia Veitchi magnifica. A comparatively new plant making an attractive show with reddish violet flowers and long, gray-green leaves. Blooms all the latter part of the Summer. Can be planted promiscuously among shrubs or in masses for a background. In severe Winters top kills back but comes up quickly next season. 18 to 24 in., 35c.

Caragana

Caragana arborescens (Siberian Pea Tree). An upright growing shrub bearing in May and June bright yellow flowers in abundance. The bloom is small and the shape of a sweet pea blossom. Very hardy and attractive in group planting. 18 to 24 in., 35c; 2 to 3 ft., 45c.

Cornus—Dogwood or Osier

This group of shrubs is adaptable for wide use in border and screen plantings; they grow nearly as well in shady places under large trees as in sunny situations and thrive in almost any soil. Attractive in flower, they produce an abundance of berries and the foliage in Fall is highly colored.

Cornus alba (Tartarian Dogwood). With small clusters of white flowers, succeeded by blue-black, ornamental berries and the blood-red stems and branches, it makes one of the most attractive shrubs. 18 to 24 in., 35c; 2 to 3 ft., 45c.

Cornus stolonifera (Red Osier Dogwood). Similar to *Cornus alba*. 18 to 24 in., 40c; 2 to 3 ft., 50c.

Cornus lutea (Yellow-Twigged Dogwood). Golden yellow branches which afford striking contrast to the other varieties. 18 to 24 in., 40c; 2 to 3 ft., 50c.

Cydonia

Cydonia japonica (Flowering Quince). Small shrub with thorny branches completely covered in Spring with vivid red flowers, followed by small, quince-like fruits which are quite fragrant. Good hedge plant and may be sheared if desired. 18 to 24 in., 45c; 2 to 3 ft., 65c.

OUR SHRUBS ARE 2 to 4 YEARS OLD
24 YEARS OF NURSERY EXPERIENCE

SHRUBS THAT MAKE YOUR GARDEN INVITING

Cotoneaster

Grown chiefly for their ornamental fruits, and also for the brilliant colors which their foliage assumes in Autumn. They thrive in any good, well-drained garden soil, but dislike very moist and shady positions.

Cotoneaster acutifolia (Pekin Cotoneaster). Tall shrub, growing to 12 feet in height, with slender, spreading branches. Black fruits in September and October. 18 to 24 in., 60c; 2 to 3 ft., 75c.

Cotoneaster divaricata (Spreading Cotoneaster). A variety much used in rock gardens. 18 to 24 in., \$1.40; 2 to 3 ft., \$1.65.

Cotoneaster horizontalis. Very useful rock plant. 12 to 18 in., \$2.50.

Deutzia

One of the finest of the flowering shrubs and remarkable for the abundance of beautiful blooms which cluster thickly along the branches in early Spring. Of easy cultivation and valuable in shrub plantings. Very good also in borders or as specimens.

Deutzia Lemoinei (Lemoine's Deutzia). A small shrub, usually growing 2 to 3 feet tall. Flowers medium large, pure white, borne in cone-shaped clusters in June. Like *D. gracilis*, it is excellent for forcing. 18 to 24 in., 40c.

Deutzia Gracilis. (Slender Deutzia.) Dwarf growing sort. Pure white bell shape flowers. May be potted and will bloom in winter. 12 to 15 in., 40c.

Deutzia, Pride of Rochester. Grows 6 to 8 ft. high. Double white flowers tinged with rose on outside. 2 to 3 ft., 50c.

Forsythia—Golden Bell

One of the earliest shrubs to bloom and very early in the Spring before the leaves appear they are completely covered with masses of rich golden yellow flowers. Their habit of growth varies from low and spreading to tall and upright, and height from 3 to 8 feet. The foliage is dark green and they are well adapted for massing, while the upright forms make excellent tall hedges. They grow well in shady places.

Forsythia intermedia (Border Forsythia). A vigorous grower with slender, erect or arching branches. 8 to 12 feet. Considered by many to be the best of the family. 2 to 3 ft., 50c.

Forsythia Fortunei. (Fortunes Forsythia). The most upright of the Forsythias. 2 to 3 ft., 50c; 3 to 4 ft., 60c.

Forsythia Suspensia (Weeping Golden Bell). Drooping in habit. Brilliant yellow blooms. Shiny green leaves. 2 to 3 ft., 65c.

Euonymus alatus (Winged Euonymus). Spreading shrub, wood very corky. 18 to 24 in., 90c; 2 to 3 ft., \$1.25.

Hibiscus

Althea (Rose of Sharon). Fine free-flowering shrubs of compact, upright habit. Very desirable on account of blooming during August and September, when so few other shrubs are in blossom. Make beautiful screens or hedges, or can be planted as specimens. 2 to 3 ft., 50c.

CELERY CITY NURSERIES, Kalamazoo, Mich.

A FEW DOLLARS IS ALL IT COSTS TO HAVE A BEAUTIFUL GARDEN

Hydrangeas

There is no plant or shrub better known than the Hydrangea, comprising some of the most showy plants in cultivation. It transplants easily and readily. Blooms the first season, has no insect enemies, is very reliable and hardy for all sections of the country.

Hydrangea arborescens (Snowhill Hydrangea). Has the appearance of a low-growing Snowball with its large, flat clusters of white flowers in June and July. The most hardy of the Hydrangeas and especially useful for shady places. 18 to 24 in., 50c; 2 to 3 ft., 60c.

Hydrangea paniculata grandiflora. One of the most popular shrubs in cultivation, and adapted to varied uses. May be planted in hedges, beds, groups, scattered among other shrubs in massed plantings, or planted alone as a specimen, and produces an attractive effect wherever placed. Flowers in August, in huge panicles from 8 to 12 inches long, of a delicate pink, changing to bronze and lasting until Autumn. A very effective and desirable shrub. 18 to 24 in., 50c; 2 to 3 ft., 60c.

Hydrangea, Tree Form. Same as above but grafted on to a single stem, forming a small treelike shrub. 3 to 4 ft. trees, \$1.35.

Hypericum

Hypericum prolificum (Shrubby St. John's Wort). A bushy, low-growing shrub with many flowers in mid-summer. Useful in border or where low growth is wanted. It grows well in rocky or in sandy soil. It is 2 to 3 feet in height at maturity. 18 to 24 in., 75c.

Kerria

Kerria japonica flore pleno (Double Kerria). A very desirable shrub of spreading habit, bearing large, yellow flowers in June, attaining a height of 4 to 5 feet. Effective for massing. Does best in partial shade. 18 to 24 in., 75c.

Ligustrum—Privet

(See page 20 for Privet Hedge)

Ligustrum amurense (Amoor River Privet). A valuable ornamental shrub for hedges and borders. Very hardy foliage; glossy green, and holds its color almost the entire year. Will stand clipping to any extent. 2 to 3 ft., \$2.00 per 10.

Ligustrum ibota (Ibota Privet). A native of China and Japan. Foliage long and shining; flowers large, white and fragrant. Valuable for its flowers and foliage. 2 to 3 ft., \$2.00 per 10.

Ligustrum ibota Regelianum (Regel's Privet). Splendid, dense shrub with spreading branches. A very graceful bush for hedges. 2 to 3 ft., \$3.50 per 10.

Ligustrum ibolium (Ibolium Privet). Very hardy, with excellent foliage. 12 to 18 in., \$1.00 per 10.

Ligustrum ovalifolium (California Privet). The well known variety. Vigorous grower. Deep glossy green leaves; fine for hedges or screening purposes. 2 to 3 ft., \$1.50 per 10.

WHY ENVY YOUR NEIGHBORS' FLOWERS?

YOU CAN HAVE YOUR OWN

Lonicera—Bush Honeysuckle

These vigorous, tall-growing shrubs are invaluable for screening and massing effect with their dense, green foliage and showy, red berries appearing in Summer and continuing until early Fall. They are one of the most desirable shrubs. Fine for tall hedges. Can be kept trimmed.

Lonicera bella albida (White Belle Honeysuckle). An attractive hybrid Honeysuckle of strong growth. Great fragrant clusters of white flowers in May followed by conspicuous red berries. **2 to 3 ft., 50c.**

Lonicera Maacki (Amur Honeysuckle). **2 to 3 ft., 65c.**

Lonicera tatarica grandiflora (Bride Honeysuckle). Similar to the preceding but the flowers are larger, blush white. **2 to 3 ft., 50c.**

Lonicera tarica rosea (Rosy Tartarian Honeysuckle). Bright pink flowers borne in great abundance, and fresh, rounded foliage. One of the most noticeable and makes a beautiful display planted with grandiflora. **2 to 3 ft., 50c.**

Lonicera Morrowi (Morrow Honeysuckle). A shrub with wide spreading branches and dense foliage, 4 to 6 feet tall. Leaves oval, dark green above, brown-gray beneath, 1 to 2 inches long. The creamy white flowers appear very early in the Spring and are followed by bright red berries. One of the best. **2 to 3 ft., 50c.**

Lonicera fragrantissima (Fragrant Honeysuckle). A large shrub, with numerous spreading branches, growing 8 to 12 feet high and blooming in March and April with deliciously fragrant pink and white flowers. If somewhat sheltered the foliage remains until late in the Winter. **2 to 3 ft., 60c.**

Philadelphus — Mock Orange; Syringa

This old-fashioned shrub with creamy white flowers borne in clusters is found in many plantings. There are many varieties that offer a wide range of size and blooms. All varieties are strong growers and are suitable for border, screen or specimen planting. We have a few new varieties that are exceptionally fine and you will be highly pleased with them.

Philadelphus coronarius (Sweet Mock Orange). Pure white; very fragrant flowers. One of the first to bloom. May. **2 to 3 ft., 50c.**

Philadelphus coronarius var. aureus (Golden-Leaved Syringa). A beautiful shrub with golden yellow foliage. Keeps its color the entire season. Splendid for grouping with other shrubs in border planting. **3 to 6 feet. 15 to 18 in., 70c; 18 to 24 in., 90c.**

Philadelphus Lemoinei (Lemoine's Mock Orange). A beautiful shrub with very rich foliage and large pure white, fragrant flowers in June. **18 to 24 in., 50c; 2 to 3 ft., 65c.**

Philadelphus virginalis (Double Mock Orange). Very vigorous plant, large, oval, acuminate leaves. Serrate panicles including 5 to 7 large, double-crested flowers, round petals, pure white, sweet scented. The good habit and the good qualities of flowering rank the plant as one of the best of its type. **18 to 24 in., 50c; 2 to 3 ft., 75c; 3 to 4 ft., 90c.**

CELERY CITY NURSERIES, Kalamazoo, Mich.

MAKE YOUR SELECTIONS EARLY

ORDER NOW—SAVE MONEY

Physocarpus

Physocarpus opulifolius (Common Ninebark). Green foliage, white flowers. 2 to 3 ft., 50c.

Prunus — Flowering Plum

Prunus glandulosa glabra alba plena (Double-Flowering Pink Almond). A vigorous, beautiful shrub, covered in May with rose colored blossoms like small roses. Our Almonds are budded on hardy Minnesota plum stock. 18 to 24 in., 50c; 24 to 30 in., 75c.

Prunus Pissardi (Purple-Leaved Plum). A handsome small tree with purple foliage, which endures the hot sun without injury. Blush pink flowers in great profusion in Spring. Splendid for specimen planting. 2 to 3 ft., 75c; 3 to 4 ft., 90c.

Prunus triloba (Flowering Plum). A small shrub with downy leaves and double, rose or pink flowers which appear just before leaves unfold. Very showy and a favorite. Sometimes known as Rose of China. 18 to 24 in., 50c; 2 to 3 ft., 75c.

Prunus tomentosa (Nanking Cherry). 2 to 3 ft., \$1.50.

Rhodotypos

Rhodotypos kerrioides (Jetbead). A distinct plant and very attractive with bright green leaves, and pure white flowers in late Spring. Later come black berries that hang on all Winter. Grows 4 to 5 feet. Coming a little later than most of the early Spring flowers makes it especially valuable. 18 to 24 in., 50c; 2 to 3 ft., 65c.

Rhus — Sumac

The Sumacs are among our most ornamental shrubs in Autumn, their picturesque, gnarly, wind-bent masses forming a familiar part of the landscape along country roadsides in many parts of the country. The flowers are bright yellow, in large terminal panicles, which in some sorts turn brilliant red in late Summer. Fine for mass planting.

Rhus canadensis (Fragrant Sumac). Fragrant yellow flowers; coral-red fruit. 18 to 24 in., 90c.

Rhus copallina (Shining Sumac). Scarlet fruit; foliage crimson. 18 to 24 in., 70c.

Rhus cotinus (Smoke Tree). Purple fringe. 18 to 24 in., \$1.25.

Rhus glabra (Smooth Sumac). Crimson fruit in clusters; brilliant foliage. 18 to 24 in., 40c.

Rhus typhina (Staghorn Sumac). 18 to 24 in., 40c; 2 to 3 ft., 60c.

Rhus typhina laciniata (Shredded Sumac). Deeply cut foliage. 18 to 24 in., 40c; 2 to 3 ft., 60c.

Ribes — Flowering Currant

The flowering Currants are attractive and showy objects, extremely hardy and well adapted for universal culture. Their attractive blossoms are deliciously fragrant, and are among the first to appear in the Spring.

Ribes odoratum (Golden Currant). A native species with fragrant, yellow flowers appearing early in the Spring with the leaves. 18 to 24 in., 40c.

Ribes sanguineum (Winter Currant). 18 to 24 in., 40c.

Sambucus — Elder

Aurea (Golden Elder). One of the best yellow foliage plants. Retains its color the entire season and is very conspicuous in every planting. Quick to establish itself, robust grower and attractive. 2 to 3 ft., 50c.

Sambucus canadensis (American Elder). 2 to 3 ft., 50c.

Sambucus racemosa (European Red Elder). 2 to 3 ft., 60c.

24 YEARS OF NURSERY EXPERIENCE

Spiraea — Meadow Sweet

Spiraea bumalda (Anthony Waterer Spirea). Dwarf, bushy, of spreading type and fairly covered in July with large corymbs of rosy crimson flowers. If these are removed as they fade the bush will bloom at intervals until frost. **12 to 15 in., 40c.**

Spiraea Froebeli (Froebel's Spirea). A very free growing, dwarf shrub, producing large, flat heads of rosy pink flowers in the Spring. Green foliage tinted dark red. **18 to 24 in., 40c.**

Spiraea arguta (Garland Spirea). Of dwarf habit, with spreading head. Pure white flowers in May. The best of the very early-flowering white varieties. **15 to 18 in., 50c.**

Spiraea Thunbergi (Thunberg's Spirea). Dwarf in habit, with rounded, graceful form. Branches slender and drooping. Flowers pure white; foliage narrow and long, turning to orange-scarlet in the Fall. Valuable for planting in front of other shrubs; good for seaside planting. **18 to 24 in., 50c.**

Spiraea Van Houttei (Van Houtte Spirea). This is undoubtedly the most charming and beautiful of all the varieties, having pure white flowers in clusters, the branches drooping to the ground. Foliage a rich green. Very profuse in bloom and plants remarkably hardy. An indispensable ornament for lawn or hedges, and probably the most widely planted shrub in cultivation. Commonly but erroneously called Bridal Wreath; the true Bridal Wreath is *Spiraea prunifolia*. Grows 5 to 6 feet. **18 to 24 in., 25c; 2 to 3 ft., 40c.**

Spiraea Douglasi. Rose colored flowers in large spikes, blooms nearly all Summer. Very pretty and showy and splendid for cut flowers. Grows 4 feet high. **2 to 3 ft., 45c.**

Spiraea opulifolia aurea (Golden-Leaved). Yellow tinted foliage and white flowers. **2 to 3 ft., 45c.**

SPECIAL SPIREA

Van Houtte

MAKE YOUR HOME BEAUTIFUL

—A FEW SHRUBS WORK WONDERS

Symphoricarpos — Snowberry

Symphoricarpos racemosus (Snowberry). A slender-branched, upright growing shrub with small, pink flowers, followed by showy, pure white berries, which cling to the branches a long time. 18 to 24 in., 35c; 2 to 3 ft., 50c.

Symphoricarpos vulgaris (Coralberry). Valuable for planting in shady places as the foliage is very persistent. The fruit is a purplish red and hangs on well into the Winter. Flowers small and rose colored. 18 to 24 in., 35c; 2 to 3 ft., 50c.

Syringa — The Lilacs

Syringa persica (Persian Lilac). A shrub with slender, arching branches, attaining a height of 5 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. 18 to 24 in., 45c; 2 to 3 ft., 60c.

Syringa vulgaris. Old-fashioned purple Lilac. 2 to 3 ft., 60c.

Syringa chinensis. (Chinese Lilac). 2 to 3 ft., 75c.

Syringa japonica, Japanese Tree Lilac). 2 to 3 ft., \$1.25.

Syringa, Marie Legraye. Single white. 2 to 3 ft. \$1.25.

Syringa, Madame Lemoine. Double white. 2 to 3 ft. \$1.25.

Syringa, Charles the Tenth. Rose lilac. 2 to 3 ft. \$1.25.

Syringa, Volcan. Ruby-red. 2 to 3 ft., \$1.25.

Syringa, Congo. Single dark reddish purple. 2 to 3 ft., \$1.25.

Tamarix

Tamarix africana. A beautiful shrub with small, feathery foliage similar to the juniper. Delicate, small, pink flowers. Blooms in May and grows 10 to 15 feet high. 2 to 3 ft., 45c.

Tamarix gallica indica (Indian Tamarix). Pink flowers in long, slender racemes; dull green foliage. 2 to 3 ft., 50c.

The Ever Popular Snowball

Viburnum opulus sterile (Snowball). The old-fashioned Snowball, with its large, globular clusters of snow-white flowers in May and June; makes a very attractive shrub, and is usually in bloom for Decoration Day. 18 to 24 in., 60c; 2 to 3 ft., 85c.

Weigela

Weigela rosea (Pink Weigela). Tall grower; flowers are rose colored, blooming in June. 18 to 24 in., 40c; 2 to 3 ft., 55c.

Weigela, Eva Rathke (Red Weigela). Of smaller growth than the other Weigelas, 3 to 4 feet, and sprading in character. The most distinct and one of the most attractive varieties. Flowers brilliant crimson and when in bloom in June is exceedingly showy. 18 to 24 in., 55c.

Weigela variegata. Of dwarf habit; fine for the front rank of borders and mass plantings, and one of the choicest and most useful of variegated-leaved shrubs. The leaves are broadly margined a creamy white and the flowers are a light pink. 18 to 24 in., 50c; 2 to 3 ft., 65c.

24 YEARS OF NURSERY EXPERIENCE

ORNAMENTAL TREES

FOR BEAUTY AND SHADE

How much more attractive a home looks after shade and other ornamental trees are planted. Celery City Trees are Northern field grown and only the choicest trees are shipped to our trade.

Catalpa

Catalpa Bungei (Umbrella Tree). Leaves large, dark green, lying like shingles on a roof. Forms a dense umbrella-shaped head. Very unique and a valuable lawn tree. 4 to 5 ft., \$1.25; \$2.25 per pair. 5 to 6 ft., \$1.75; \$3.00 per pair.

Catalpa speciosa (Western Catalpa). A large, rapid growing tree, widely planted both as an ornamental tree and for timber. Large, heart-shaped leaves and white flowers with yellow and purple spots. 6 to 8 ft., \$1.00 each.

Crab

Bechtel's Double-Flowering Crab. About the middle of May the trees are covered with beautiful, double, pink, sweet-scented flowers that, at a distance, look like small roses. Tree is a moderate grower, hardy and of upright habit. One of the very best. 3 to 4 ft., \$1.25.

Elm

American Elm. Large, lofty; limbs growing in wide, sweeping arches. Fine for long drives or lanes. 6 to 8 ft., \$1.50; 8 to 10 ft., \$2.00; 10 to 12 ft., \$3.00.

Maple

Ash-Leaved Maple. Grows 35 feet high, with light green foliage and smooth, greenish gray bark. It is every hardy. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.50; 10 to 12 ft., \$2.00.

Norway Maple. Without a doubt the finest large, deciduous shade tree. It grows 40 feet tall, with large, round, handsome head, and dense, dark green foliage which remains on tree till late in Fall. Reliable everywhere. 6 to 8 ft., \$2.50; 8 to 10 ft., \$4.00; 10 to 12 ft., \$5.00.

Red-Leaved Maple (Schwedler's Maple). One of the most beautiful trees we know. Foliage in Spring is brilliant purple, later changing to a rich, dark green. Leaves on the new growth during the Summer are bright purple, making the tree always beautiful. Similar in habit of growth to the Norway. 6 to 8 ft., \$5.00.

CELERY CITY NURSERIES, Kalamazoo, Mich.

SHADE TREES INCREASE VALUES OF PROPERTY

Silver-Leaved Maple. Where the quickest effect is wanted this tree is the best one. It is handsome, with leaves silvery beneath and light green above. It grows extremely fast and reaches 60 feet. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.50; 10 to 12 ft., \$2.00.

Weeping Maple. Has all the characteristics of other Maples and in addition droops somewhat like the better known Weeping Willow. 6 to 8 ft., \$1.50; 8 to 10 ft., \$2.25.

Mountain Ash

Rapid growing tree, of fine symmetrical outline. Upright or spreading branches, forming pyramidal or round-topped crown. Leaves compound, with five ovate leaflets, dark green and lustrous above, whitened beneath, fading in Autumn with tones of purple and yellow. A beautiful and desirable tree for street and park, and should be extensively planted. They thrive in almost any moist, fertile soil. 5 to 6 ft., \$1.40; 6 to 8 ft., \$1.75.

Mulberry

Weeping Mulberry. This is the best dwarf, weeping tree. The branches droop gracefully, clear to the ground. Handsome and odd. 1-yr. heads on 5 to 6 ft., stems, \$3.00.

Poplar

Bolleana Poplar. Useful in breaking the monotony of lower, round-topped trees. Will grow to a tall spire 80 feet high. Its leaves are glossy green above and silvery beneath. 6 to 8 ft., \$1.50.

Carolina Poplar. Grows 50 feet high, very quickly. The tree is very sturdy, and especially while young is handsome and useful. It is planted where quick effects are wanted. 6 to 8 ft., 50c; 8 to 10 ft., 65c.

Lombardy Poplar. Well known for its erect, rapid growth and commanding form. Leaves glossy green above, silvery beneath. Always make a striking feature in any landscape. 6 to 8 ft., 75c; 8 to 10 ft., \$1.00.

Weeping Willows

Babylonica. Probably the best known of the Willows: weeping habit, with long, slender, olive-green branches. 6 to 8 ft., \$1.25.

Golden Willow. A large and venerable appearing tree, conspicuous at all seasons but particularly in Winter, on account of its yellow bark. 6 to 8 ft., \$1.25.

Wisconsin Willow. Of drooping habit and valuable on account of its ability to resist severe cold. 6 to 8 ft., \$1.25.

Weeping Birch

Cut-Leaved Weeping Birch. The well known favorite White Birch of great beauty. Tall and slender, graceful drooping branches; silvery white bark; delicately cut foliage. 4 to 5 ft., \$2.25; 6 to 8 ft., \$3.50.

Nut Trees

Butternut	3 to 4 ft., \$1.00
Black Walnut	3 to 4 ft., \$1.00

24 YEARS OF NURSERY EXPERIENCE

HARDY CLIMBING VINES

Beautiful for Softening Bare Walls, Fences and Trellises

You can make your brick or stucco house look as charming as you wish by planting climbing vines. There are many varieties which cling to brick, stucco or stone and make bare cold walls lively and beautiful. Trellises covered with vines add much to any type of dwelling.

(If vines are desired by parcel post, add 8c for one or 20c for 10, to cover packing and postage).

AMPELOPSIS Veitchi (Boston Ivy). Leaves deep green in Summer, changing to glorious crimson and yellow in Autumn. Clings to the smoothest surfaces. One of the best climbers grown. **2-yr., 59c each.**

ARISTOLOCHIA siphon (Dutchman's Pipe). This is a splendid vine for shading; leaves very large, from 6 to 10 inches in diameter, foliage dense; a good clean vine; flowers pipe-shaped, of brownish color. **2-yr., \$1.20 each.**

BIGNONIA radicans (Trumpet Flower). A strong, woody vine with large, compound leaves and large, orange-scarlet, trumpet-shaped flowers, borne in clusters. **2-yr., 69c each.**

CLEMATIS Jackmani. Very large, intense violet flowers. The most popular large-flowered Clematis. **2-year, \$1.20 each.**

CLEMATIS, Mme. Edouard Andre. Medium size, beautiful crimson-red. **2-yr., \$1.20 each.**

CLEMATIS Henryi. Single. Finest white; very large flowers; a rapid grower and a free bloomer. **2-yr., \$1.20 each.**

CLEMATIS paniculata. Medium size, pure white, fragrant flowers which bloom in immense sheets in September. **2-yr., 49c each.**

LONICERA Halliana (Hall's Japan Honeysuckle). Flowers white, changing to yellow, very fragrant. One of the best for trellises and ground cover. **2-yr., 49c each.**

LONICERA sempervirens (Scarlet Trumpet Honeysuckle). Flowers scarlet, trumpet-shaped, two inches long; very showy. Splendid for porches. **2-yr., 59c each.**

WISTERIA sinensis (Chinese Wisteria). Handsome foliage and pale lavender flowers borne in dense, drooping clusters nearly one foot long, opening in Spring. **2-yr., 69c each.**

CELERY CITY NURSERIES, Kalamazoo, Mich.

HARDY PERENNIALS

FOR THE GARDEN

Every garden should contain many hardy perennial plants, affording variety in color and providing an abundance of cut flowers for the home.

We will ship these plants by mail and we pay the postage.

ACHILLEA, The Pearl. White-flowered border plant resembling small, double chrysanthemums. 3 for 80c; 10 for \$2.20.

ALYSSUM. Edging and rockery plant of bright golden yellow in Summer. 3 for 90c; 10 for \$2.45.

ARMERIA formosa. Dwarf rock plant, with spikes of little ball-shaped, pink flowers from Spring to Fall. 3 for 90c; 10 for \$2.40.

AQUILEGIA, Mrs. Scott Elliott's Long Spurred Hybrids. An English strain of Columbine producing many shades and combinations in purple, red, blue and yellow. Offered in mixture only. 3 for 80c; 10 for \$2.20.

ASTER, Climax. Lavender-blue; one of the best and showiest Asters. 3 for 80c; 10 for \$2.20.

CHRYSANTHEMUM. Large-flowered types and small button types supplied in assorted colors. 3 for 90c; 10 for \$2.45.

COREOPSIS. One of the most satisfactory hardy plants for steady bloom from June on. Flowers of rich, golden yellow and of good size. A strong grower. 3 for 80c; 10 for \$2.20.

DELPHINIUM. One of our most showy and attractive plants. Available in the following varieties:

D. Belladonna. Large spikes; delicate blue.

D. Bellamosum. Large spikes; dark blue.

D. English Hybrids. Grand assortment and mixture, ranging from lightest blue to purple. 3 for 80c; 10 for \$2.20.

CHINESE LANTERN PLANT. Grown for the large, bladder-like, orange-red fruit which cover the branches in Autumn and may be dried for Winter decoration. 3 for 90c; 10 for \$2.45.

DICENTRA (Bleeding Heart):

D. Spectabilis. The old-fashioned Bleeding Heart, which has been so long a favorite. Much used for forcing and is at home in any part of the hardy border. 60c each; 3 for \$1.70.

D. Eximia. Heart-shaped pink flowers, tapering to a long, slender neck. Blooms profusely all Summer. 3 for 80c; 10 for \$2.20.

DIGITALIS (Foxglove). One of the most popular old-fashioned plants. Stalks grow to about 3 feet. Bloom in July and August. Should be in every planting. 3 for 80c; 10 for \$2.20.

DIANTHUS or HARDY PINKS. One of grandmother's favorites, and still going strong. About 18 inches high, flat clusters of flowers of various colors. 3 for 80c; 10 for \$2.20.

GAILLARDIA (Blanket Flower). A gorgeous perennial. Blossoms in June and will continue all Summer if frequently cut. About 2 feet high. A hard center of deep maroon is bordered by petals of orange and yellow, ringed by circles of crimson, red and maroon. 3 for 80c; 10 for \$2.20.

GYSOPHILA (Baby's Breath). 3 for 90c; 10 for \$2.45.

24 YEARS OF NURSERY EXPERIENCE

PERENNIALS—Continued

HIBISCUS (Mallow). Of quick, shrubby growth, bearing quantities of large, Fall flowers like single hollyhocks. Red and pink shades. 3 for 90c; 10 for \$2.45.

LATHYRUS latifolius (Perennial Sweet Pea). 3 for 90c; 10 for \$2.45.

LYTHRUM roseum. Bright rose colored flowers borne freely in long terminal racemes from June to September. 3 for 80c; 10 for \$2.20.

MONARDA (Bergamot or Oswego Tea). Red flowers with a ragged petalage. 3 for 80c; 10 for \$2.20.

PERENNIAL PHLOX. Phlox are indispensable in a hardy border, being reliable midsummer blooms.

P. Athis. Salmon-pink.

P. Beacon. Cherry-red.

P. Miss Lingard. White.

P. Mrs. Charles Dorr. Lavender.

P. Pantheon. Deep salmon-rose.

P. Richard Wallace. White, crimson eye.

P. Rijnstroom. Bright pink, large flowering.

P. R. P. Struthers. Carmine, claret-red eye.

P. Thor. Deep salmon-pink, with red eye.

P. Moss Pink. Used for covering graves and for rock work.

Price, all Phlox, 3 for 80c; 10 for \$2.20.

GLORIOUS GLADIOLUS

—one of the most
beautiful flowers.

Easy to grow and
profitable.

New Decade Mixture is a blend of many fine varieties, covering a wide range of form and color. 60c per dozen; \$2.00 per 50; \$3.50 per 100.

If Gladioli are desired by parcel post, add 12c for 12 bulbs or 25c for 50 bulbs, to cover packing and postage.

PLATYCODON (Balloon Flower). Large, handsome, bell-shaped flowers. Erect growth. A fine border plant. White or blue. 3 for 80c; 10 for \$2.20.

SHASTA DAISY. A fine plant for any hardy garden. Blossoms white, and when at their best are sometimes 3 and 4 inches across, and are very desirable for cutting. 3 for 80c; 10 for \$2.20.

SEDUM. Handsome, rubbery leaved plants, at home in dry soil and in rockeries. Mixed varieties. 3 for 80c; 10 for \$2.20.

VERONICA (Speedwell). *Longifolia subsessilis*. A handsome plant. Spikes of blue flowers. 2 feet high. 3 for 90c; 10 for \$2.45.

YUCCA. A hardy, evergreen plant. Blossoms on a tall stalk, which terminates in branching spikes of beautiful, creamy white, bell-shaped flowers. Midsummer. 3 for 90c; 10 for \$2.45.

CELERY CITY NURSERIES, Kalamazoo, Mich.

MAROON. Red and gold.
PURPLE PRINCE. Purple.
VARIEGATED. Blue and white.

(If Irises are desired by parcel post, add 8c each or 25c for 10, to cover cost of packing and postage).

24 YEARS OF NURSERY EXPERIENCE

LANDSCAPE YOUR LAWN WITH EVERGREENS

Colorado Blue Spruce

Growing in the Nursery at Vicksburg, Michigan

Evergreens are beautiful in summer and in winter and there are so many varieties that it is possible to bring about year round effects that add hundreds of dollars to the value of most any home.

Arbor-Vitae-Thuya

Thuya occidentalis (American Arbor-Vitae). Soft, green foliage in Spring and Summer, which changes to brown or bronze in winter. Rapid grower and fine for massing or hedges. 1½ to 2 ft., \$1.50; 2 to 2½ ft., \$2.50; 2½ to 3 ft., \$3.00.

Thuya globosa (Globe Arbor-Vitae). Forms a dense low lobe; handsome shade of green. 10 to 12 in., \$2.00; 15 to 18 in., \$2.50.

Thuya pyramidalis (Pyramidal Arbor-Vitae). Most compact and erect of the entire species, in form almost a counterpart of the Irish Juniper. Foliage a deep green, retaining color. 1½ to 2 ft., \$1.75; 2 to 2½ ft., \$2.75; 2½ to 3 ft., \$3.75; 3 to 4 ft., \$5.00.

Juniper — Juniperus

Juniperus hibernica (Irish Juniper). Erect, slender and formal in habit, foliage sage green, very compact; making a splendid column eventually 15 to 20 ft. high. 1½ to 2 ft., \$2.25.

Juniperus Pfitzerianá (Phitzer's Juniper). One of the most striking of all evergreens. The branches are long and whiplike, densely furnished, very dark green. 18 to 24 in. spread, \$4.00; 2 to 3 ft. spread, \$8.00.

CELERY CITY NURSERIES, Kalamazoo, Mich.

EVERGREENS—Continued

Juniperus sabina (Savin Juniper). Handsome, moss green foliage; adapted for filler in groups, or as a dwarf ground cover. 12 to 15 in., \$2.50; 15 to 18 in., \$3.00; 18 to 24 in., \$4.00.

Juniperus virginiana (Silver Cedar). The compact, conical habit of this variety, combined with its silvery foliage, renders it very distinct and desirable. 2 to 2½ ft., \$5.00.

Picea — Spruce

Picea alba (White Spruce). One of the very best conifers, especially for cold climates. Compact, upright, long-lived, retaining its branches to the ground; aromatic, drought resisting; varies in color from light green to glaucous blue. 1½ to 2 ft., \$2.50; 2 to 2½ ft., \$4.00.

Picea canadensis (Black Hills Spruce). We wish to call particular attention to the Black Hills Spruce. The very smallest trees soon form round, sturdy, compact bodies. As the tree grows it adds to this style of growth and in most cases is the most compact growing of the Spruce family. It retains its branches close to the ground even in old trees. 1½ to 2 ft., \$2.50; 2 to 2½ ft., \$4.00.

Picea excelsa (Norway Spruce). A tall and grand tree of rapid growth. Most widely cultivated of the Spruces. Stands shearing well, making a fine hedge. Widely used for windbreaks. We have a large stock and will be pleased to quote in quantities. 1½ to 2 ft., 2 to 2½ ft., \$2.50.

Pinus — Pine

Pinus mughus (Dwarf Mountain Pine). Of low, dense, spreading growth, with very dark foliage; very hardy. 10 to 12 in. spread, \$2.00; 12 to 15 in. spread, \$3.00; 15 to 18 in. spread, \$4.00.

Pinus austriaca (Austrian Pine). Tree remarkably robust, hardy and spreading. Leaves long, stiff and dark green; growth rapid. 1½ to 2 ft., \$2.50.

Pinus sylvestris (Scotch Pine). A native of the British Isles; a fine robust, rapid growing tree, with stout, erect shoots and silvery green foliage. Very hardy, valuable for shelter. 1½ to 2 ft., \$2.00; 2 to 2½ ft., \$3.00; 2½ to 3 ft., \$4.00.

Retinispora Japan Cypress

Retinispora plumosa. An exceedingly handsome, acorn-shaped evergreen of medium tall growth, from Japan; with billowing light green foliage. 10 to 12 in., \$1.50; 1½ to 2 ft., \$2.75.

Retinispora plumosa aurea. Like the preceding; of a golden yellow color; close and compact habit. 10 to 12 in., \$1.50; 1½ to 2 ft., \$2.75.

ROSES

The Loveliest of All Flowers

Everybody loves Roses and anyone who has a plot of ground large enough for a bush can have them. There are so many kinds of roses blooming at so many different periods, it is easily possible to have fresh, fragrant roses all summer long. We take special pride in our Roses, which are all 2 year stock.

Hybrid Tea Roses

Prices of all varieties, except as noted: strong 2-year-old No. 1 grade bushes 65c; medium grade, 45c each.

Plant this class for garden Roses to bloom all Summer.

COLUMBIA. New. Glowing pink.

ETOILE DE FRANCE. Vivid crimson, with darker shadings.

FRANK DUNLOP. Won silver medal for the best new pink Rose at the International Flower Show at New York last Spring.

GRUSS AN TEPLITZ. Scarlet; constantly in bloom.

HADLEY. Velvety crimson.

JONKHEER J. L. MOCK. Outside of petals deep pink, inside silvery rose.

KAISERIN AUGUSTA VICTORIA. White; fine form.

KILLARNEY. Pink; favorite bedding Rose.

LADY HILLINGDON. Deep apricot-yellow.

LOS ANGELES. Luminous flame-pink, toned coral, shaded translucent gold at base of petals.

MADAME ABEL CHATENAY. Rose-carmine tinted salmon. Flower large, exquisitely formed and charmingly colored. It is very free flowering and the bush is a vigorous grower, with rich, heavy dark foliage.

MADAME BUTTERFLY. A glorified sport of Ophelia; a symphony in bright pink, apricot and gold. The buds are a rich Indian red, yellow at the base. Perfect in form and texture, and of delicious fragrance.

MRS. CHARLES BELL. Soft shell-pink with salmon background.

GENERAL MacARTHUR. A new everblooming Rose; flowers and buds are extra large, bright glowing crimson-scarlet; a vigorous grower, every shoot producing a flower of brilliant color.

LUXEMBOURG. One of the best yellow Roses, similar to Sunburst but thrives very much better here than Sunburst.

MADAM CAROLINE TESTOUT. Rich pink.

RADIANCE, PINK. A brilliant rosy carmine, displaying beautiful rich and opaline-pink rings in the open flower.

RADIANCE, RED. Dazzling crimson-scarlet.

SUNBURST. Rich yellow, shaded coppery orange.

SOUVENIR DE CLAUDIUS PERNET. Best new, sunflower yellow.

Hybrid Perpetual Roses

The following are very hardy Roses, blooming briefly in June and July and off and on throughout the Summer. They should be represented in every garden.

Prices of all varieties, 65c each; medium grade, 45c each.

FRAU KARL DRUSCHKI. An extremely popular Rose, on account of its very large size, pure white flowers and perfect form. Free and perpetual bloomer, and vigorous in its growth.

PAUL NEYRON. Deep rose color; good foliage; by far the largest variety in cultivation; one of the best.

CELERY CITY NURSERIES, Kalamazoo, Mich.

GENERAL JACQUEMINOT. This might be called the Rose for the millions, for it is still a universal favorite. The fragrant, perfectly formed blossoms come early, are brilliant scarlet-crimson, and borne on long stems. Vigorous, hardy plant.

ULRICH BRUNNER. A very vigorous and hardy perpetual Rose, with large, perfectly formed blooms, light red in color. Always use generously in Rose plantings, as it is one of the best. Very fragrant.

MRS. JOHN LAING. A strong growing plant producing many and immense blooms of soft clear pink. The buds are long and beautiful, opening up into huge cup-shaped flowers of lovely fragrance. Popular is it deserves to be.

Hardy Climbing Roses

Prices of all varieties, except as noted, 65c each; medium grade, 45c each.

CLIMBING AMERICAN BEAUTY. The moderately fragrant, rich rosy crimson, three-fourths inch flowers are produced in great abundance.

CRIMSON RAMBLER. Great masses of crimson, semi-double flowers are borne by these vigorous plants. Desirable pillar and porch plant.

DOROTHY PERKINS. One of the most notable Climbing Roses. Clear cherry-pink, slightly fragrant; borne in great profusion and lasts a long time.

DR. VAN FLEET. Probably the best Climbing Rose in cultivation. Perfectly formed, long pointed, deep pink buds on long stems, with several in a cluster that open to a lighter shade of pink.

EXCELSA. An intense crimson, with the edges of the petals a little lighter, produced in immense clusters.

PAUL'S SCARLET CLIMBER. The brightest and purest red of all the Pillar Roses. No other Rose, in any class, can compare with this for brilliancy of color, which is a vivid scarlet. Flowers are semi-double, very freely produced in clusters of from 3 to 20 flowers each on much-branched canes. It is of strong climbing habit, and perfectly hardy. One of the most popular Climbing Roses.

WHITE DOROTHY. Closely resembles Dorothy Perkins except for its immense clusters of pure white flowers. The most valuable white climber of its class.

TAUSENDSCHOEN (Thousand Beauties). Covered with bright blossoms of every imaginable shade from white to deep pink, borne in clusters; quite double.

GARDENIA. Here it is at last—a Climbing Yellow Rose! So many of our customers have been clamoring for a Yellow Climber, and we have waited until we could offer one of real merit. The yellow buds are delightfully charming, and merge into white as they open. Truly a beautiful and much-sought-for Rose—a strong grower and free bloomer.

Miscellaneous Roses

DWARF BABY RAMBLER. Customer's choice of three colors: Red, Pink and White. 49c each.

C. F. MEYER (Pink Rugosa). 79c each.

F. J. GROOTENDORST (Crimson Rosa Rugosa). 79c each.

HUGONIS (Yellow Rugosa). 89c each.

WICHURAIANA. Creeping Memorial Rose. 59c each.

ROSA RUGOSA RUBRA. The favorite and well known Rugosa Rose with handsome foliage and rose colored, single flowers, followed by large, bright scarlet berries. Hardy everywhere. Should be universally planted. 49c each.

HANSA. Double Red Rugosa. 69c each.

SPECIAL:

CLIMBING ROSES

Dorothy Perkins, Shell Pink

Roserie, Deep Pink

Gardenia, Bright Yellow

\$1.35**

24 YEARS OF NURSERY EXPERIENCE

THE CARE OF TREES AND PLANTS

When the trees are received from the nursery, they should be examined and cared for at once. Do not delay. If they cannot be set at once, the bundles should be opened and the trees separated, and heeled in the ground so that the moist soil will thoroughly cover the roots and exclude all air from them. Do not at any time expose the roots to the sun or air longer than is absolutely necessary. If they are dried from long exposure, bury them entirely in the ground or place them in water from twelve to twenty-four hours before planting.

Before any holes are dug, the land should be thoroughly plowed and the soil finely pulverized. It is best to have the field marked out and stakes driven where each tree is going to be set, so the trees will be absolutely in line. If the trees are to be set in the lawn or where the ground cannot be plowed, spade the ground for at least three feet in diameter and eighteen inches deep.

Just before planting, examine all the roots carefully and cut to a smoothed surface any bruised or extra long roots with a sharp knife or pruning shears. It is best to trim all the roots somewhat.

The hole should be sufficiently large to admit all the roots without bruising or cramping and deep enough so that the tree will stand one or two inches deeper than it stood in the nursery row. After the tree is placed in the hole, fill the hole about half full of top soil, then tramp down firmly. The top three or four inches of soil should not be tramped too firmly. Large or tall trees should be staked so the wind will not loosen the roots. If the soil is very dry, water should be poured into the hole after the hole is half filled with soil, then the dry soil should be placed on top.

Mulching with fine barnyard manure, sawdust, grass, weeds or straw around the tree after it is set, not only helps shade the ground, but enriches the soil. Mulching keeps the soil from drying out and often spells the difference between success and failure when planting trees and shrubs.

Peach trees may be cut back to four or five branches near the top and these should be cut back leaving one or two buds on each branch to insure one good branch to form one of the four or five main or scaffold branches of the tree. Apples, cherries, pears, plums and quinces should be cut back to about four branches and these in turn should be cut back at least one-half. In all cases, avoid leaving branches where they will form crotches.

If these brief directions are carefully followed, OUR trees should all grow.

Number of Trees or Plants Per Acre

Distance	No. of Trees
1 ft. apart each way.....	43,560
2 ft. apart each way.....	10,890
3 ft. apart each way.....	4,840
4 ft. apart each way.....	2,702
5 ft. apart each way.....	1,742
6 ft. apart each way.....	1,210

"How Far Apart Shall I Plant"

The correct distance apart to plant is often a problem to planters. There are no set rules for this but with out years of experience in planting and growing, we are glad to suggest advisable distances to our customers, which will work out very satisfactorily in every way.

	Feet Apart
Apple Trees	25 to 40
Cherry Trees	15 to 18
Plum Trees	15 to 18
Pear Trees	15 to 18
Peach Trees	15 to 18
Grapes	6 to 8
Currants	3 to 4
Gooseberries	3 to 4
Red Raspberries	3 to 4
Black Raspberries	1 by 5
Blackberries	4 by 6
Spring-bearing Strawberries	1½ by 3
Everbearing Strawberries	1 by 3
Asparagus, in field	1 by 3
Asparagus, in beds	1 by 1½

"BEARING" SIZE TREES

EXTRA CHOICE STOCK

Many people ordering fruit trees, ask us if we can supply "bearing" size trees. While it is impossible to furnish trees that will bear at once after transplanting, yet through a method employed in growing and selecting, which we have successfully developed, we are able to offer these extra size trees of apples, cherries, pears and plums at prices that compare favorably with those of most firms offering just ordinary stock. If you wish these large sizes, which are from $\frac{1\frac{1}{2}}$ inch to 1 inch in diameter, and from 5 feet to 7 feet high, depending upon variety, they are available in all kinds listed and described in this catalogue.

PRICES OF "BEARING" SIZE TREES AS DESCRIBED ABOVE:

(For usual size see pages 3 to 10)

	Each	10	100
Apples	\$.60	\$5.00	\$40.00
Sour Cherry75	6.50	50.00
Sweet Cherries85	7.50	60.00
Plums75	6.50	50.00
Pears75	6.50	50.00
